

# FINISHES

## LOOK LIKE CHROMIUM®

Sublimate your products with a reflective metal luster for an exceptional result!

Many colors available

EXCLUSIVELY WITH ➤ **metalfog** ➤ **smoothit**

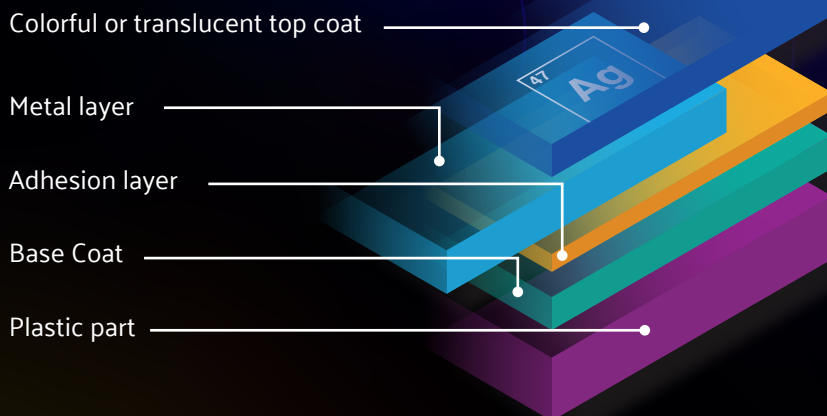

LOOK LIKE CHROMIUM® is an innovative finishing process that gives a high-quality metallic look to your plastic parts without weighing them down.

This aesthetic treatment is carried out in three automated steps, in our Metalfog and Smoothit machines.

Our main customers are actors in the luxury, fashion, jewellery and watchmaking sectors as well as optical.

Finish your parts in-house, save time and money.

### COATING
